

StayCubic printer check

Print this page at 100% scale, then measure the bar below.

This bar is exactly 100 mm (3.94 in)

It measures 100 mm

Your printer is honest. Print any StayCubic kit at 100% and the cube comes out at 94 mm per side.

It measures about 96 mm

Your driver is shrinking the page to fit its margins. Turn off "fit to page" or "shrink oversized pages" and print again.

It measures something else

Divide 100 by what you measured and print the kit at that percent. Measured 78 mm? Print at 128%. Measured 128 mm? Print at 78%.

94 mm

One side of the finished cube,
at 100% print scale.

Print at 78% instead and you get
a 73.3 mm cube, the size that
fits the small clear display boxes.
